

The UBC Department of Anesthesiology, Pharmacology & Therapeutics
is proud to announce the 2016/17 annual

Dr. Jean Templeton Hugill Visiting Professor Lecture

“FROM CLINICAL OBSERVATION TO PUBLICATION. THE CHANGING WORLD OF SCIENTIFIC PUBLICATION”

Gregory L. Bryson, MD, MSc, FRCPC

Associate Professor and Vice Chair of Research,
Department of Anesthesiology and Pain Medicine, University of Ottawa
Deputy Editor-in-Chief, *Canadian Journal of Anesthesia*

Wednesday, April 26, 2017 at 6:00 pm

**Vancouver General Hospital, Jimmy Pattison Pavilion, Third Floor, Room JPPN 3414
910 West 10th Avenue, Vancouver, BC**

A reception with light refreshments will be held prior to the lecture at 5:30 pm (JPPN 3151).

Dr. Jean Templeton Hugill was one of the first female anesthesiologists in Western Canada in the 1950s. She earned a reputation for taking on difficult cases and became a key figure in developing obstetric anesthesia in BC. After a long career devoted to clinical care, Dr. Hugill was determined to support anesthesia research, which she said she was always interested in but unable to pursue herself. Motivated to facilitate collaborative research between anesthesiologists and pharmacologists, Dr. Hugill left a bequest to the Faculty of Medicine upon her death in 2012, adding to her previous 1991 gift that was matched by the BC Government to establish an endowed Chair in Anesthesia.

Dr. Gregory L. Bryson graduated from the University of Manitoba (1989) and completed his post-graduate training in anesthesia (1994) and epidemiology (1998) at the University of Ottawa. He is currently an Associate Professor and the Vice-Chair of Research at the Department of Anesthesiology and Pain Medicine at the University of Ottawa. Greg is an Associate Scientist in the Clinical Epidemiology Program at the Ottawa Hospital Research Institute where his research agenda includes the rational use of preoperative testing and care of the ageing surgical patient.

Host: Dr. Stephan Schwarz, UBC Dr. Jean Templeton Hugill Chair in Anesthesia.

This lecture will be broadcasted live to various hospital sites, including the following:
NRGH 2053, RJH CA 011, VGH 1914, UHNBC 5030, RH 1763, LGH 2506, and RCH 017.

Movi users: Dial the 5-digit ID, 30303; **Audio-Bridge users:** Dial 1-877-792-2770, followed by the 5-digit ID.

VC Anywhere 2 allows to join the lecture from any internet-enabled device using the **WebEx**-link,
